

Dropdowns are currently showing 3,4,5.  
These are the correct values I want to store in the database.

So -

3 = Medical Benefits

4 = Dental Benefits

5 = Vision Care

**What I want to be shown in the dropdowns are the labels:**

Medical Benefits, Dental Benefits, Vision Care (like the tab names above the fields in the screenshot below).

BTW – the labels are fields supplying page names to documents and webpages.

The user can change the name of the field from within the tabs shown above the fields I do not want them to change the field name in the dropdown or results of the dropdown.

Since the name of the field (name of the page) can change, I want the field to be the label and not a language string.

This particular field (Restrict Pages) will allow the user to specify which pages are restricted by a username/password on their website.

**CURRENTLY SHOWING ON THE WEBSITE**

The screenshot shows a web application interface for 'AB Company Benefit Information'. At the top, there is a navigation bar with links: HOME, CLIENTS, USERS, FLIPBOOKS, ADMINISTRATION, LOGIN/LOGOUT, Client Info Test Table, and BIC - Client Benefits. Below the navigation bar is a tabbed interface with various categories: COMPANY INFO (selected), COLORS & LOGO, PAGE TITLES & LAYOUT, Home Page, Enrollment, New Hire, Accidental, AD&D, Critical, Dental Benefits, Dis, Employee Assistance Program (EAP), Flexible Spending, Hospital Indemnity, HRA, Health Savings Account (HSA), Identity Theft, Group Life, Long Term Dis, Medical Benefits, Pet Insurance, Pharmacy and Prescriptions, 401k Retirement, STD, Supplemental Ins, TeleMedicine, Vision Care, Voluntarily, Well, Contact Page, Documents Page, Tools for Better Health, Help, BENEFIT WEBSITE, FLIPBOOKS, INSTRUCTIONS, and Administrator. The main form area contains three fields: 'Restrict Pages Username' with a masked input field, 'Restrict Pages Password' with a masked input field, and 'Restrict Pages' with a dropdown menu. The dropdown menu is open, showing the options 3, 4, and 5. Below the dropdown are 'Update' and 'Cancel' buttons.

Incorrect

The results of the field shown after selecting the pages and saving is correct.

This screenshot shows the same web application interface as the previous one, but after the 'Restrict Pages' field has been updated. The 'Restrict Pages' field now displays the text 'Enrollment, Medical Benefits, Dental Benefits, Vision Care'. The rest of the interface, including the navigation bar and tabs, remains the same.

Correct

The database table is showing the correct values

<i>_whitetext</i>	<i>cb_contactphone</i>	<i>cb_medicalcarriers2</i>	<i>cb_restrictpages</i>
<i>NULL</i>	<i>NULL</i>	<i>NULL</i>	<i>NULL</i>
<i>NULL</i>	<i>NULL</i>	<i>NULL</i>	<i>NULL</i>
<i>NULL</i>	<i>NULL</i>	<i>NULL</i>	<i>NULL</i>
<i>NULL</i>	<i>NULL</i>	<i>3 14 5</i>	<i>NULL</i>
<i>NULL</i>	<i>NULL</i>	<i>NULL</i>	<i>NULL</i>
<i>NULL</i>	<i>NULL</i>	<i>NULL</i>	<i>NULL</i>

Correct

What is incorrect is the label on the dropdowns.

What I want is

Medical Benefits

Dental Benefits

Vision Care

Instead of

3

4

5
