CB – Private Message System

Behaviour 1

(Transformation from popup window to embedde window – on desktop)

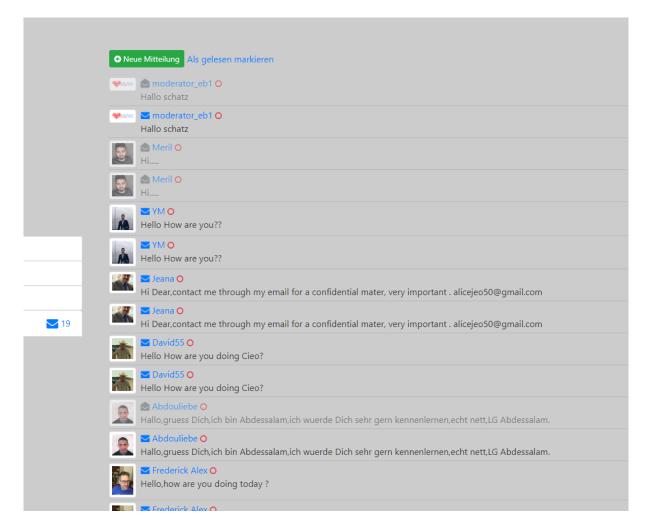

1) I click on the message counter of a certain profile... (see below : here are 19 messages)

Community Menu	
🖀 Eigenes Profil ansehen	
🕼 Profil aktualisieren	
警 Favoriten verwalten	_
	19 🗲

2) A popup window with all the messages of this profile appears.....

... now the popup window reopens again....Now I see the messages in the popup window AND in the embedded frame as well. Is this behaviour as intended?

Behaviour 2

(I do not see the list of e-mails I have sent)

1) I click on the message counter again:

2) I go to the view with the «embedded» list of all messages...

2) The following text will apperar:

«Are you sure you want to block this user from accessing your profile an communicating with you » \rightarrow I will click on OK

Error Not authorized

... question : Why is it not allowed to block a user ? Are there some settings?

Behaviour 4

(Warning messages because of deleted users)

 In some situations (I don't know exactly how to reproduce them) I get some warnings that it is not possible for the system to load the messages of deleted users → Question: But why does he try to load messages from deleted users ?
