CB Paid Subscriptions: Edit Subscription Plan

Save	Apply	Back	Close
------	-------	------	-------

Subscription Plan

A Subscription Plan includes the settings for that plan, which can be set here.

Name of product:	Chapter Membership	
Type of product:	User Subscription Plan	
Subscriptions with this plan:	3	
Active subscriptions with this plan:	3	
Expired subscriptions with this plan:	0	
Subscriptions with this plan that have been upgraded to another plan:	0	
Url of plan to display only this plan ('-' to display multiple plans):	index.php?option=com_comprofiler&task=pluginclass&plugin=cbpaidsubscriptions&do=displayplans&plans=1	

Warning: Changing a plan with existing subscriptions will change these subscriptions, except for the current expiry date of active ones. If you need to make changes, it's better to create a new plan, and not allow new subscriptions to the old plan.

Presentation	Pricing	Tax	Workflows	Access	Integrations
--------------	---------	-----	-----------	--------	--------------

Plan settings: Pricing and validity:

Currency:

Pricing and validity

Is the first amount and period different:

Regular Plan pricing and validity

Regular Price of plan:	<input type="text" value="1.00000"/>	
Regular Validity duration:	<input type="text" value="1 w week (7 days)"/>	
Total number of occurrences of regular validity/price (0=unlimited):	<input type="text" value="0"/>	

Prorate remaining value of this plan when upgrading:

Bonus time before expiry (for calendar-based durations):

Renewable in advance by:

Grace period before real expiration:

Manual renewal extends expiration date as follows:

Auto-renewals with auto-recurring payments

Some payment processors allow for automatic recurring payments (ARB) or automated subscriptions payments. If your payment processor supports this feature and it is implemented and enabled in the payment gateway settings, you can select following options:

Auto-recurring renewals (*):

Note: Your payment processor needs to support the periods that you set here. E.g. authorize.net ARB has a minimum of 7 days between occurrences. Please test in front-end your settings.

Payment invoice item text

Settings for item text when presenting the invoice to the user, as well as the description text sent to the payment processor: You can substitute text using following strings: [PREFIX_TEXT] (depending on payment: can be empty for new subscriptions, or Renew, Upgrade), [ITEM_NAME], [ITEM_ALIAS], [ITEM_DESCRIPTION], [VALIDITY] (displays duration of plan, not recommended as it displays also for auto-recurring plans), [VALIDITY_IF_NOT_AUTORECURRING], [EXPIRY] (not recommended as it displays also for auto-recurring plans, displays expiry date/time (if configured), [EXPIRING_IF_NOT_AUTORECURRING] (displays expiring on date +time if configured to display time, formatted by CB date format), [PLANS_TITLE], [SITENAME], [SITEURL], [USERNAME], [NAME], [EMAIL] and any [cb_fieldname].
