

Issue

I have enabled blogs for Community Builder members on my web site. The blogs should be presented on a dedicated page “Member News”.

However, when clicking on the member menu, I get an error page:

Needless to say – I don't know what causes this.

Menu item settings

The screenshot shows the Joomla! administrator interface for editing a menu item. The browser address bar displays `birdobservatories.com/administrator/index.php...`. The page title is "Menus: Edit Item - Bird o...". The interface includes a top navigation bar with "System", "Users", "Menus", "Content", "Components", "Extensions", "Help", and "Community Builder". Below the navigation bar is a toolbar with buttons for "Save", "Save & Close", "Save & New", "Save as Copy", and "Close". A green message box at the top states "Message: Menu item saved." The main content area shows the "Menu Item" settings for "Member news" with an alias of "member-news". The settings are organized into tabs: "Details", "Link Type", "Page Display", "Metadata", and "Module Assignment". The "Details" tab is active, showing the following fields:

- Menu Item Type: Plugin (Selected)
- Plugin: CB Blogs
- Function: Show Blog
- ID: (Empty)
- Link: `index.php?option=com_comprofiler&view=pluginclass&plugin=cblogs&action=blogs&func=`
- Target Window: Parent
- Template Style: - Use Default -
- Menu: Main Menu
- Parent Item: Menu Item Root
- Ordering: Member news
- Status: Published
- Default Page: No
- Access: Public
- Language: All
- Note: (Empty)

The bottom status bar shows "View Site", "1 Visitors", "1 Administrator", "1 Messages", and "Log out". The Joomla! version is 3.8.1, and the copyright is © 2017 Bird observatories.

Note the Link is see above

http://birdobservatories.com/index.php?option=com_comprofiler&view=pluginclass&plugin=cblogs&action=blogs&func=show

is different from the link on the error page.
